## **DETAILED ACTION**

### ***Status of Application/Amendment/Claims***

1. Applicant's response filed 28 October 2004 has been considered. Rejections and/or objections not reiterated from the previous office action mailed July 28, 2004 are hereby withdrawn. The following rejections and/or objections are either newly applied or are reiterated and are the only rejections and/or objections presently applied to the instant application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 61 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 61 recites "The method of claim 29 R<sub>2</sub> and R<sub>3</sub> are each a phosphodiester-linked oligonucleotide..." The claim is grammatically incorrect because it is unclear how "R<sub>2</sub> and R<sub>3</sub>" relates to "The method of claim 29". Insertion of a "wherein" clause would be remedial.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

Art Unit: 1635

improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 28-30 and 52-69 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6, 8-14, 16-25 and 27 of U.S. Patent No. 6,326,358. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instantly rejected dependent claims 28-30, and 52-69 of the present application are drawn to methods of using the compounds of U.S. Patent No. 6,326,358, which also claims methods of use in an organism. Thus the scope of the instant claims and those of the patented claims are largely the same.
